DS-Lab2

- Implement queue using Doubly Linked List.

  - Queue Operations:

    - Enqueue(int data) : Adds element to the back of Queue.

    - Dequeue(): Removes and returns the first element from the queue.

    - GetFront(): Returns the first element of the queue without removing it.

    - size() : returns the number of elements in the Queue.

    - DisplayReverse() : display queue from rear to front
